

GRADE : 1

WEEK : 5th – 9th JUNE, 2016

WEEKLY UPDATE

The week was fun-filling with full of engaging activities making learning accessible and fun for our high-spirited students who are always brimming with energy, positivity and ready to accept newer challenges. As we begin the Holy month of Ramadan, we take this opportunity to wish you all 'Ramadan Kareem'.

MATH – LEARNING ZONES

Learning zones are designed in a way to support learning and make it more interesting. In Unit 2, since the students are learning 3D shapes, so we have designed SHAPE STATION to enhance their knowledge on 3D shapes. Practical learning experience create greater impact than bookish knowledge. That is where our purpose of establishing Learning zones fall into place.

UPCOMING EVENTS – EOU Exams

As we near the EOU exams from next week, we would like to remind you all that the schedule for exams and timetable along with the revision worksheets are uploaded on My Learning. Kindly follow up with your child so that he/she could attempt the exams with confidence and score well.

EVS - ANIMALS

Just as sponge absorbs water, our little explorers have absorbed more about animals this week. They have further discovered the food habits of animals, the groups of animals and the difference between vertebrates and invertebrates.

ARABIC ASSEMBLY

This week the students of Grade 3 and 4 participated in the Arabic assembly. There was also an Arabic quiz held for Grades 1 to 4. The assembly proved to be fruitful and extremely informative. We are enthralled of the confidence the students are blazing with these days during assemblies.

EXHIBITION - INNOFEST

4th June '16 marked yet another day a creative and innovative execution of student's creativity. While the whole NMS was engaged in PCM, few students from Grade 3 and 4 took lead in showcasing the Social Studies Primary department exhibition. These confident young presenters spoke about progression of UAE seen from the olden times to that of the present modern era. The whole presentation was drawn on sand with small 3D miniatures of camel, palm tree, dhow boat, oasis, RTA of UAE, building, Dubai airport and flights. The students as well as parents thoroughly enjoyed admiring the innovative and creative piece of art put up by the Social Studies Primary team.

BOOK FAIR

Building reading skills is extremely important for children in their primary level and equally important for parents to support children's reading and learning success at school. We had organized a book fair for 4 days from 6th – 9th June and we thank parents for encouraging their child to buy books of their choice and by making the best use of this book fair.
