

Weekend Communique

GRADE : 3

WEEK : 5th -9th June

...مساء الخير... Good afternoon!

Time flies and this week started with heated praise about what a great job children did at the " INNOFEST". The social studies and science department blew everyone's minds with children showcasing their knowledge about their experiments and cultural knowledge of the UAE. The comparison between old and new Dubai to see was a treat for the eyes. A few pictures ingrained in our memories about the event.

Weekend Communique

GL assessments for the students of Grade 3 are over and students attempted it with great vigor. International benchmarking exams inform us about the progress and attainment of students and we look forward to the results.

Innovation Book Fair was held at the school so children have access and the desire to own books. This year is the Year of reading and students at NMS are avid readers. We are proud of them. It was wonderful to see children reading with 3D glasses. Great way to interest children!!!

Arabic assembly saw children of Grade 3&4 competing in a quiz. Children enjoyed and amassed a lot of knowledge from the quiz. The spirit with which it was conducted was riveting.

EOU- Next week we start with EOU 2. The practice papers have been uploaded. We wish the children the very best.

UP NEXT- Math Week and EOU
