

# Weekend Communique

GRADE : 2

WEEK : 8<sup>th</sup>- 12<sup>th</sup> April, 2016

مساء الخير... Good afternoon!

*A young boy said to his mother, 'How old were you when I was born?'*

*His mother replied, '23.'*

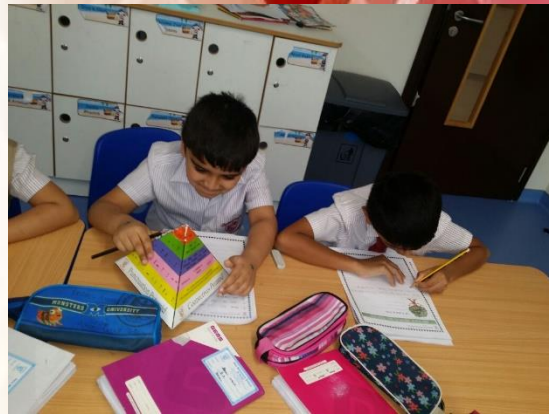

*The boy replied, 'Wow, that's a lot of time we missed spending together.'*

And that's how we guess "Mother's Day" has come into being... when we realize how much our mothers mean to us...

This week's assembly was dedicated to all the mothers who deserve all the pampering, love and special treatment. Grade 3C students put up a brilliant show for their mummies, who were invited to the event. It began with a tender poem, followed by a skit emphasizing how we should cherish the presence of mothers in our lives. They ended the show with a song and a beautiful video with snapshots of our students with their mummies. It was indeed one of the most affectionate and touching performances, as it left many mummies tearful by the end. Kudos to all our brave, beautiful mummies!

**End of Unit Tests-** The EOUs for Unit 1 have concluded for most grades. We wish the students all the best for the upcoming results!

**Poetry Recitation Winners-** The Winners of the Poetry recitation competition were awarded with certificates. We congratulate the proud parents and hope to see more of such captivating recitals in the future.

# Weekend Communique

GRADE : 2

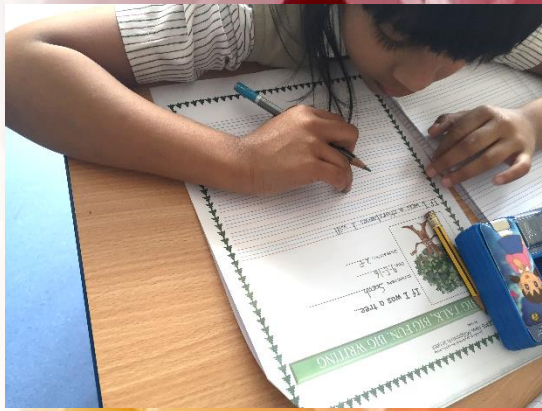

WEEK : 8<sup>th</sup>- 12<sup>th</sup> April, 2016

**Prize Night-** On Thursday evening, 5<sup>th</sup> May, 2016, our students' achievements and efforts were celebrated in this star studded ceremony. The different categories in which the students were awarded defined their accomplishments from last year in international or school assessments, discipline, roles and responsibilities, etc. Congratulations to all the proud parents and the Winners.

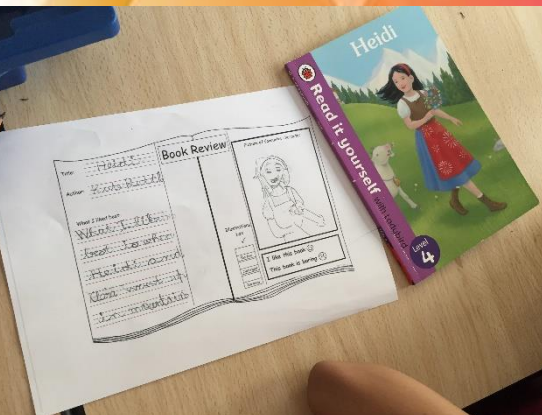

**Genius Hour-** Please spend the weekend with your child in helping them finalize and design their Genius Hour projects. Students have been studying different modes of transport and how pollution affects the environment. They must come up with their own invention of a transport system/ vehicle that is pollution- free. All the models will be displayed in school on Sunday and students will be asked to speak about what they have designed. The best work will also be rewarded.

**BIG WRITE-** The BIG FUN took place this week as Grade 2 students talked about how they would be if they were a tree. Strongly linked to EVS and SST, they picked many ideas and made connections that is evident through their written pieces. While some chose to be a medicinal plant or a Date palm tree, others decided its more fun to be a Christmas tree.

**Book review-** Want to watch how grade 2F students completed a book review? Scan the QR code below:

**Coming up:**

- Science Week

مع السلامة.... HAVE A RELAXING WEEKEND!
